INTRODUCTION

This report presents information from the 1971 Census of Canada, for the population 15 years and over, showing 1970 income groups by sex. Data are shown for census metropolitan areas, census agglomerations, cities and towns and other municipalities of 10,000 population and over.

The information in this report was collected on a sample basis. As a result, the population for a given geographic area may differ from that shown in reports containing data collected on a 100 p.c. basis. Further information on the sample and the weighting system can be found in the introductory report of this volume.

Average and median income figures in this report are calculated only for persons reporting income. Medians are calculated from group data shown in this report.

Comparability with 1961 data: Coverage in the 1961 Census was from a 20 p.c. sample of non-farm private dwellings only, and was exclusive of the Northwest Territories. In 1971, however, a one-third sample was taken, which included farm and collective dwellings and covered the Northwest Territories. The data from the two censuses are therefore not directly comparable.

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

Note: Aggregate income calculated from these data should be used with caution as averages were calculated prior to rounding.

DEFINITIONS¹

Income: Persons 15 years and over, were asked to report total income received during the calendar year 1970 from each of the sources explained below:

- (a) **Wages and salaries:** (amount before deductions for income tax, pensions, unemployment insurance, etc.) Includes military pay and allowances, tips, commissions and bonuses and piece-rate payments received during 1970, but excludes free room and board or other payments in kind.
- (b) **Net income from self-employment (non-farm):** (gross receipts minus expenses of operations) Amounts received from own non-farm unincorporated businesses or from a professional practice during 1970. In the case of partnerships, only the respondent's share was to be included.
- (c) **Net income from farm operation:** (gross receipts minus expenses of operations including depreciation) Amounts received from the operation of a farm, either for own account or in partnership, during 1970. Advance, supple-

Ce bulletin présente des renseignements tirés du recensement du Canada de 1971, pour la population de 15 ans et plus, par tranche de revenu en 1970 selon le sexe. Les données sont indiquées pour les régions métropolitaines de recensement, les agglomérations de recensement, les cités et villes, et autres municipalités de 10,000 habitants et plus.

Les renseignements de la présente publication ont été recueillis par échantillonnage. Il s'ensuit que le chiffre de population pour une région géographique donnée, n'est pas forcément le même que celui des publications dont les données avaient été recueillies à 100 p. 100. Vous trouverez d'autres renseignements sur le système d'échantillonnage et de pondération dans l'introduction de ce volume.

Dans ce bulletin, le revenu moyen et le revenu médian ne sont indiqués que pour les personnes déclarant un revenu. Le revenu médian est calculé d'après les données indiquées dans ce bulletin.

Comparabilité avec les données de 1961: Au recensement de 1961, les données étaient fondées sur un échantillon de 20 p. 100 seulement des logements privés non agricoles et excluaient les Territoires du Nord-Ouest. En 1971, toutefois, l'échantillon était de un tiers et comprenait les logements agricoles et les logements collectifs et incluait les Territoires du Nord-Ouest. Les données des deux recensements ne sont donc pas comparables.

Par souci de confidentialité, les chiffres de 1971 publiés ici ont été soumis à une formule qui garantit l'impossibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités, des tableaux (y compris tous les totaux) sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De même, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

Nota: Le revenu total basé sur ces données devrait être utilisé avec prudence, les moyennes ayant été calculées avant l'arrondissement.

DÉFINITIONS¹

Revenu: Les personnes de 15 ans et plus devaient indiquer le revenu total reçu pendant l'année civile 1970 de chacune des sources suivantes:

- a) **Rémunération:** Rémunération totale avant déductions de l'impôt sur le revenu, des cotisations à un régime de pensions, des cotisations d'assurance-chômage, etc., y compris les soldes et indemnités militaires, les pourboires, les commissions et les gratifications ainsi que les paiements à la pièce reçus en 1970, mais sans la pension gratuite ou les autres paiements en nature.
- b) **Revenu net d'un emploi autonome (non agricole):** Recettes brutes, moins les dépenses d'exploitation, provenant de l'exploitation en 1970 d'une entreprise non agricole non constituée en corporation ou de l'exercice d'une profession pour compte propre. Dans le cas des sociétés exploitées en association, seule la part du recensé est prise en compte.
- c) **Revenu net provenant d'une exploitation agricole:** Recettes brutes, moins les dépenses d'exploitation, y compris l'amortissement, provenant de l'exploitation en 1970 d'une ferme pour compte propre ou en association. Les avances, les paiements

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.
